It has been suggested by energy scientists that illness is often the result of a discrepancy in the energy field surrounding the body.

The **BodyBalancer** programme adapts a unique approach of selective tones, a selection of videos and images images.

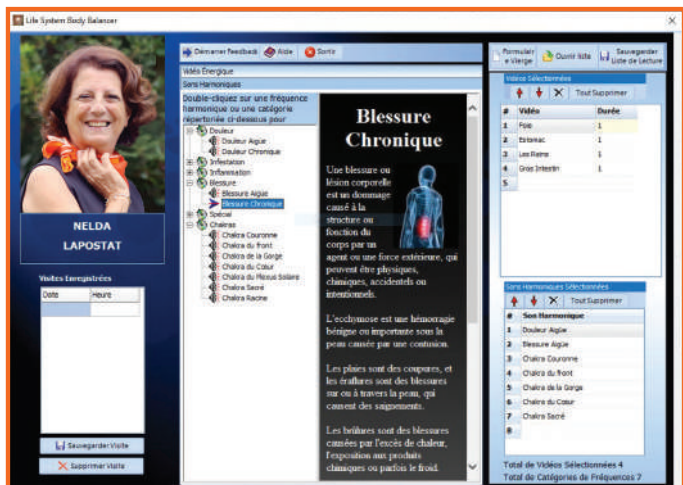

The images and waveforms in the **BodyBalancer** programme are intended to convey a sense of well-being to those who view them, helping to restore balance and harmony.

well-being to those who view them, helping to restore balance and harmony.

The images work in a similar way to fractal images.

Spiral energy and patterns are visual waveforms that are similar to fractal images, except that fractals are often static images, whereas spiral energy patterns are normally presented in a streaming video format. energy patterns are normally presented in a moving video format to format to enhance their effect.

In addition, they are generally accompanied by the use of various sounds or sound signals. Many of these were developed by shamans, yogis, monks and other spiritually or energetically sensitive people.

Different choices

All the sounds in the **BodyBalancer** programme have been used for many years without years without any adverse effects for either the practitioner or the the practitioner or the client. They can be compared to listening to a pleasant selection of music.

Please note that this programme does not replace the need for traditional medical care, nor the need to make personal lifestyle adjustments.

The screenshot shows the 'Life System Body Balancer' software interface. On the left, there is a photo of a woman, NELDA LAPOSTAT, and a section for 'Visites Energétiques' with a table for recording dates and times. The main area displays a hierarchical tree of body systems and organs, including 'Système Circulatoire', 'Système Cardo-Vasculaire', 'Système Respiratoire', and 'Système Lymphatique'. A central panel shows a detailed description of the 'Foie' (Liver), explaining its functions such as producing substances, converting glucose, and filtering toxins. On the right, there is a 'Vidéos Sélectionnées' section with a table listing selected videos and their durations. The bottom of the interface shows the total number of selected videos and categories.
